

“EVERY BRIDE AND GROOM WILL FIND A TREATMENT APPROACH TO BEST SUIT THEM.”

THE AUSTRALIAN CENTRE FOR ADULT ORTHODONTICS AND ORTHOPAEDICS

A common problem faced by brides on their wedding day is showing their crooked teeth when they smile. In the long term, a poor bite can ultimately cause irreversible damage such as excessive tooth wear, joint problem and muscle pain. With their wedding day looming, more and more brides are seeking treatment and advice to address this problem so they can pose in front of the camera at their best.

Crooked teeth, bite problems and facial imbalance can be treated effectively and efficiently with aesthetic braces, lingual braces, Invisalign (clear aligners), orthodontic implants and speedy braces (self-ligating technology). Their perfect smile will be captured forever. With The Australian Centre for Adult Orthodontics and Orthopaedics' (CAAO) customised bridal services (eg removing the braces before the wedding and putting them back on later at no extra cost), every bride and groom will find a treatment approach to best suit them. CAAO also offer payment plans, making the treatment not only effective but economical and stress free.

CAAO's experienced bridal consultants will organise your appointments to fit in your timeframe. Have a Smile Analysis with

Dr Gareth Ho and learn how to reveal your most attractive smile. You will also be equipped with ingenious advice when you pose in front of the camera, no dental treatment, just techniques to hide the imperfections when you smile.

CAAO offers the bride-to-be a quality of life choice which benefits far exceed a beautiful photo on their big day. A life-long improvement of dental health, increased self-image and self-confidence and in turn a greater sense of well-being are only some or them. CAAO utilise cutting-edge orthodontic technologies that will enhance the process and results of adult orthodontic treatment. They focus on addressing adult patients' needs and unsightly metal braces can be minimised or totally avoided.

CAAO's state-of-the-art orthodontic surgery offers the latest solutions including sophisticated computer-aided assessment and Interactive Patient Education Software, in a relaxing and ambient dental lounge. Their dedicated business centre facilities are available for the busiest of professionals to conduct their day to day business.

Contact CAAO today for a happier, smilier you today!
