

When it comes to a perfect wedding, one of the most important aspects is looking absolutely beautiful and a big part of that is a dazzling smile. A common concern for brides-to-be is showing crooked teeth, and being unable to express the true joy felt on the wedding day. At the Australian Centre for Adult Orthodontics and Orthopaedics (ACA OO), Dr. Gareth Ho, who is a specialist orthodontist with years of experience behind him, will equip you with ingenious advice to reveal your most attractive smile for those special photographs which last a life time. A Smile Analysis with Dr. Ho can show you how to conceal those imperfections when you smile without any dental treatment!

We pride ourselves in offering brides-to-be a true quality-of-life choice. Treatment leads to a life-long improvement of dental health, self confidence and a brighter self-image which will translate to all aspects of your professional life. We utilise cutting-edge orthodontic technologies that will bring you not only the most desired smile but also enhance the process of the adult orthodontic treatment.

If you've been thinking about having orthodontic treatment, crooked teeth, bite problems and facial imbalance can be treated effectively and efficiently with aesthetic braces, lingual braces, Invisalign clear aligners, orthodontic implants and speedy braces (self-ligating technology). Unsightly metal braces can be completely avoided! In fact, the benefits of orthodontic treatment far exceed beautiful photos; the transformation is truly-life-changing. For example, a poor bite may cause irreversible damage in a long run, such as excessive tooth wear, joint problems and muscle pain. Orthodontic treatment not only gives you the perfect smile, but also corrects dental concerns such as bite problems, enhancing your quality of life.

For those who choose to have orthodontic treatment but are concerned with time restriction - worry no more! Dr. Ho will be able to straighten your teeth for a beautiful smile within a few months, ensuring that the bride or groom will have an absolutely dazzling smile for the photo session, with the convenience of completing the treatment later. Equipped with useful advice from the Smile Analysis at no extra charge, you will be sure to have unforgettable wedding photos, which will be the envy of all your friends and family.

At ACA OO, we offer great services at a very reasonable cost, and you take away from the experience much more than a perfect wedding and beautiful photos. We also offer interest-free payment plans, making the treatment not only effective but economical. If you have private health insurance with orthodontic cover, you may also claim back part of the treatment fee.

Our state-of-the-art orthodontic surgery offers the best and latest in technology including sophisticated computer aided facial assessment and interactive patient education software. Our office is conveniently located in the Sydney CBD (World Square) with a relaxing and ambient dental lounge to make your visit even more enjoyable. Our dedicated business centre facility is available for the busiest of professionals. We aim to assist you in every way we can to suit your busy schedules and streamline your wedding planning. Our Bridal Dental Consultant will organise everything for you, making the whole process as stress-free as possible. With our customised bridal services such as removing the braces before the wedding and put back on later for treatment completion at no extra cost, every bride or groom can be assured to find the best approach and appliance to suit them.

If you have been thinking about having braces for a long time, the best time is now! Orthodontic treatment has never been easier, beautiful, more affordable and beneficial than right here at ACA OO.
